

STEEL PACKING STRIPS

Steel Packing Strips is made carbon structured steels via cold-rolled, electric heat and blue.

Characteristics

Packing Strip LF2/12A578354
TensileStrength-,930-700n/mm2
Elongation-3-4%
Width-3/4", Thickness-0.55mm
Ribbon type ordinary
Each coil- 9KGS+/-1
Each Pack- 3 coil (27kgs)

Application

Bundling and packing of wood, paper cotton spinning, glass, stone, steels, weld tube etc.
