

Specification sheet Split sleeve repair clamp

Pipe sizes: 10"
Sealing Length: 30 "
Operating pressure: 102 bar
Testing pressure: 1.3 x operating pressure according to current API regulations

Material:

Body: ASTM A 516 Grade 70
Stiffener: ASTM A 105
Bolts: A193 Gr. B7 PTFE coated
Nuts: A 194 Gr. 2H PTFE coated
Rubber: NBR
Hinges: Yes
Body coating: Epoxy Coating Yellow 100 Micron DFT

Design: ASME Sec. VIII, API 6H to include bolt induced bending stress

Testing: 100 % RT butt welds
100 % UT of vent plug welds
100 % MPI of the hinge welds

Certification: EN 10204 3.1

Packing: in wooden boxes, suitable for long term storage
