

# STEEL PACKING STRIPS

Steel Packing Strips is made carbon structured steels via cold-rolled, electric heat and blue.

## Application

Bundling and packing of wood, paper cotton spinning, glass, stone, steels, weld tube etc.

## Characteristics

Packing Strip LF2/12A578354  
Tensile Strength- ,930-700n/mm<sup>2</sup>  
Elongation-3-4%  
Width-3/4", Thickness-0.55mm  
Ribbon type ordinary  
Each coil- 9KGS+/-1  
Each Pack- 3 coil (27kgs)
